

Audit and outsourcing firm · Colombia

Numbers you can stand behind.

Statutory audit, external audit, accounting outsourcing, tax and payroll for companies operating in Colombia. We deliver the figures your management decides with, on time.

Two services. Two different relationships.

You need a statutory auditor

Statutory audit

We audit under International Standards on Auditing and report findings as they arise, not in the final report.

You need someone to run your books

Accounting outsourcing

Bookkeeping and tax compliance with an assigned team. And tax and payroll when you need them.

Payroll

Payroll processing, social security, electronic filing and a self-service portal for your employees.

Tax

Tax filings, responses to inquiries and recovery of tax credits.

We put ourselves in your shoes

We understand your business, your operation and your people. We look for the solution that makes your life easier, not ours.

Tell us where you stand today.
